

What limits would you put on cell phone/technology usage for Students 9-12?

Only use between classes and in study halls.
Students should be allowed to have phones with them but not use them during instructional time
Phones must be collected at the beginning of class and returned at the end of class
Not allowed unless before school, homeroom, study hall, end of day
No cell phone usage - technology is more pronounced (increase restrictions regarding what's available and how it is used) - students 9-12 should be learning how to use technology for career based competence and acceleration. No social media, no texting.
Limited time. During lunch or designated periods only.
No phones in classrooms
Limited until free time.
All phones put away during class times.
Available in lockers ONLY: till they distract then no more
Cell phones do not leave book bags/lockers. Technology should be utilized to enhance their educational experiences.
None
Phones allowed on students but not to use during class
Use when done with assignments, lunch and break
Stict cellphone policy.
Hold students accountable consistently
Students are permitted to use their cell phones during the school day. They must be placed in sight of the teacher if they choose to have it in their possession on their desk. If it becomes a distraction, the teacher may take it and utilize the handbook to his/her jurisdiction.
Only use between classes and in study halls.
Use of cell phones should not be permitted during instructional times.
Cell phones kept in lockers or put in designated area in each classroom as they enter, no use during classes
No cell phones unless an emergency. Teacher led technology use.
No limits
No cell phones during class
Cell use at Lunch and study hall
no phones
No cell phones at all in class. Technology only for learning purposes.

No cell phone usage during class. Technology use when needed to build upon curriculum.
Students should not have their cell phones in the classroom.
no cell phones but chromebooks and ipads for learning
Put all phones in a basket during class , returned when instruction is completed or as they exit the class
No personal cell phone use during class
No cell phones when we're a 1-1 district providing devices already. The devices should have teacher-approved apps and programs accessible. We should be teaching students how to be good cyber citizens.
Limit usage to free periods and during class for educational purposes.
No phones in the classrooms.
Cell phones in lockers only
Same as middle school answer.
put away during class/allowing during study hall and lunch, etc.
Just limit during classroom time
Cell phones not allowed out of bookbags/lockers during the school day
I'm not in the high school, but do students need their phones during instructional times? They shouldn't use them during a paid work day, so why should we let them use them (for non academic reasons) at BBSD? If an assignment can be enhanced by using a personal device, then great! But to text and take photos and watch YouTube videos? Unnecessary. And they definitely shouldn't go to assemblies. I was so embarrassed of our students' cell phone usage during assemblies this year. So many students on their phones and ignoring the presenters! Not a very good Mountaineer welcome :(Chromebooks used only at teacher-direction. No need for game playing and random video watching during what is supposed to be instructional time.
Students in grades 9-12 can have their cell phones with them during the school day. However, they should not be out during class time. If students can not follow this rule, teachers should have a designated drop off box that students must put their phones in at the beginning of class. High school students may use their phones between classes, during lunch, and before/after school. Technology/Chromebooks should be out as teachers decide the students should use them. If not needed during that class period, they should remain closed and under desks. Again, if students cannot follow this rule, the Chromebooks should be dropped off in a designated area before class and picked up at the end of class.
Limited
Same as 5-8.
no cell phones out during class
Students phones need to be kept in their backpack and turned off during school hours. Phones are the biggest distraction in the classroom. Students should NOT have them out in class at any time.
No cell phone use during class, limited use at other times as needed. Technology used for instructional purposes.
Teacher collects them before class. No phone in the lunchroom. You cannot take your phone to the restroom.
Same as k-4
Clean Classroom-Prohibit

No phones in class
No cell phones/technology unless requested by the teacher
lunch privilege cell phone/ technology needed
Limited use during school-selected periods of time. Teachers should not have to be cell phone police.
The school to help kids understand the addiction the phone have on their life's and how to use them as resources not as their whole life. Doing their free time at school this age needs to talk to each other not look at their phones. But they need to learn responsibility with phones. They need computers.
Cell phones only during down times. None in classrooms. Technology for engaged learning
Students may have phone but should not be using them in classes; this greatly distracts from their learning. Technology should be used at teacher's discretion.
N/a
Students do not need to use their cellphones during instructional hours.
able to keep on student and stored by teacher during class
Only on free time
No classroom usage, but can have the phone in pocket, etc.
cell phones stay in bookbags turned off
