

FALL 2023

HEATING, VENTILATION, AIR CONDITIONING, AND REFRIGERATION

Did you know that there is a critical shortage of technicians in Heating, Ventilation, Air Conditioning, and Refrigeration (HVAC/R)?

Starting in the Fall of 2023, SCTC plans to answer the industry call and open a new HVAC/R training program that will be available to both high school/secondary and adult students.

In Pennsylvania, HVAC/R jobs are considered High Priority Occupations (HPOs): one component of Pennsylvania's industry-driven approach to workforce development, aligning workforce training and education investments with occupations that are in demand by employers, have higher skill needs and are most likely to provide family sustaining wages.

The Tech Center has the backing of more than 20 industry partners who are ready to support the program and hire our graduates:

- 
- Ace HVAC
 - APR Supply
 - Bradley & Sons HVAC
 - Darr Construction
 - Donald Buday - Builder
 - Frazier Plumbing, Heating & Air
 - J.A. Rodda Plumbing & Heating
 - K&K Plumbing Inc.
 - Kirsch Heating
 - Kupetz Plumbing & Heating
 - Laurel Plumbing
