Schoolwires Teacher Pages - Live!

March 2015

Volume 12, Issue 8

Parents have begun to notice the updated district web page.

Starting on Monday, March 2, parents will now be able to view their child or children's teacher(s) personal site. Teachers were

given a similar template so that all web pages would be

somewhat uniform in appearance. Some of the categories teachers included on their

Schoolwires page were welcome message, educational background, work experience, weekly lesson plans, courses

that are being taught (including a syllabus,

text and resources), individual classroom rules, an academic resource link, teacher e-mail, school phone number, and any extra-curricular coaching/advisor positions. Optional items teachers could include on

their personal web page are a recent photograph, a teacher's blog, or an about me page which may include family, hobbies or special interests. The school district web page was in need of a facelift

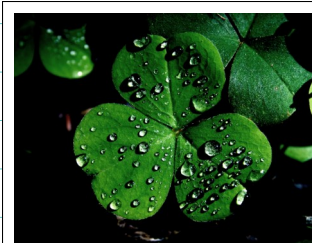

and School wires was the best solution to make this process a viable option. I am

excited to see what creative talents the staff have used to create their pages.

The web pages are going to be another great communication tool for the parents of our district.

Quote of the month
